

Nova's commitment to social responsibility & diversity

Nova Capital Global Markets LLC is a global firm with global coverage in more than 40 countries spanning four continents. Contributing to society and promoting a diverse work force is important to us.

The Nova family has contributed significantly to social responsibility in some of the most poverty stricken regions in the world. For example, Nova has assisted micro-lending institutions in Africa, which provide loans and financial services, to enable women who want to become entrepreneurs to access capital at the micro level. While small amounts in developed nations, these loans represent an avenue to escape poverty, provide for families, and allow the purchasing of equipment and goods to launch or sustain a business. Additionally, Nova has led capital-intensive expansions of local businesses that did not have access to global capital sources. Often, these businesses represented the basic building blocks of infrastructure and industrial development in frontier markets.

Nova prides itself in having the foresight, insight, and courage to penetrate an underserved market and bring new hope and prosperity to these young and growing countries.

At Nova, we believe that every associate is one-of-a-kind, with a unique perspective and outlook. We seek to enrich our firm by recruiting individuals from diverse cultures and backgrounds with wide ranging experience and academic achievement from all over the world. We encourage the training of interns and new entrants into the financial industry and make every attempt to teach by example the highest moral, ethical, and professional standards. As a result, we are able to pool our collective insights and intelligence to provide fresh and innovative thinking for our clients.
